2015 Theme Song

David Chambers

VERSE ONE

We're hanging out with Angels, TIDIRH
2015

We all start out as strangers, within a
week we're friends

Learn implementation science in the land
of roses*

Work to receive funding for D&I proposals

*Apologies to Bulgaria, known as the “land of roses”

VERSE ONE (CONTINUED)

And here's the inner scoop, the faculty
will speak for beer*

Perhaps a fine merlot*, as long as secret
stays here

Choosing a model, design to handle
complex needs

To seek a standard care that optimizes
quality

*Not really. We're only joking**

**Actually, that is true.

CHORUS

T-T-T-TIDIRH, five years of iteration
T-T-T-TIDIRH, interactions small and large
T-T-T-TIDIRH, a week of mentoring
T-T-T-TIDIRH, you'll be the next best things

VERSE TWO

Day one we contemplate the best of our specific aims

Day two we throw in tools*—evaluation is the game

Day three expands our minds toward trade-offs in the grand design

Day four and five our ideas age like Californian wine

*Safety goggles are mandatory if using power tools.

VERSE TWO (CONTINUED)

We'll discuss funding opps, from
agencies so far and wide
And mock reviews will show the flaws
that we will try to hide
Globalization of D&I to raise all boats
Conclude with sound ideas as beautiful
as Rose Bowl floats

RH

CHORUS

T-T-T-TIDIRH, you make it worth our while
T-T-T-TIDIRH, D&I gods have to smile
T-T-T-TIDIRH, you'll take the lessons home*
T-T-T-TIDIRH, more contexts you will roam

*Home is where the heart is. It's also in the center of your chest, with a slight tilt to the left.

BRIDGE

Kaiser and CRN are hosting, there's strength in numbers

And NIH and VA staff will make you wonder*

With such diverse and talented trainees to make us drool

It's so much fun that we all want to return to school...

*I'll bet you're wondering how did they get such cool people at NIH and VA?

CHORUS

T-T-T-TIDIRH, done in the LA style
T-T-T-TIDIRH, Heavenly beds deserve a trial
T-T-T-TIDIRH, you'll make us all proud
T-T-T-TIDIRH, so shout it out loud*
